Subject: I oppose Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Wasn't the unprecedented huge rate increase recently granted to Duke enough to satisfy their greed for a while? Meanwhile, seniors and families have to decide between buying food or heat-shame on you if you allow them another increase so soon!

Sincerely,

Deb Good
